

Industry-leading Product-Performance Inspection Equipments

Isolation Resistance Inspection Equipment

Helium Hermeticity Inspection Equipment

Material Analysis (Inner Strength, CTE, etc) Equipment

Wire-Bonding Equipment

Parallel Seam Sealing Equipment

Crystalline Phase Analysis Equipment

Advanced Plating Thickness Measuring Equipment

Ultrasonic Sweep-frequency Equipment

The equipments listed out are only a portion of in-house equipments, these advanced top-brand equipments are capable of handling all inspection requirements per China Military Standard 923A, 548A (Military Standard 883, Military Standard 38354, etc.)
